

Unidirectional Antenna

fullparabolic grid

Benefit

- Simetric Beam Forming
- Burdenless Construction
- High Wind Endurance
- Enhanced Coverage
- Flexible Polarization
- Adjustable Mounting
- Always Available
- Cheap and Reliable

Competitive Analysis

Unidirectional Antenna

Semiparabolic grid

Benefit

- Simple Construction
- High Wind Endurance
- Enhanced Coverage
- Vertical/Horizontal Polarization
- Adjustable Mounting
- Always Available
- Cheap and Reliable

Competitive Analysis

Omnidirectional Antenna

Benefit

- Simple Construction
- High Wind Endurance
- Enhanced Coverage
- Optimal 360deg Polarization
- Multipoint Solution
- Always Available
- Basestation Support
- Cheap and Reliable

Competitive Analysis

Sectoral Antenna

Benefit

- Simple Construction
- High Wind Endurance
- Enhanced Coverage
- Optimal 360deg Polarization
- Multipoint Solution
- Always Available
- Basestation Support
- Cheap and Reliable

Competitive Analysis

Panel/Planar Antenna

Benefit

- Easy to Install
- Wide-angle Beam
- Effective in Short Coverage
- Dual Polarization
- Always Available
- Client Support
- Cheap and Reliable

BRAND

Pasific Wireless
